

13강. Tuition

▶ Script

The president gives a warning to colleges to take action against the rising costs of college tuition. President Obama said "We can't just keep on subsidizing skyrocketing tuition. If tuition is going up faster than inflation, no matter how much we subsidize it, we're gonna run out of money." The president's plan was received with skepticism by a professor at Penn State University. Robert Hendrickson says he thinks the president's motives are good but he is not sure that Obama has come up with a solution that's gonna work. Hendrickson also says tuitions are rising across the country because schools must pay for the increasing costs of energy, goods and services. Josh Aikins is a senior at Penn State University. He likes the idea of the government keeping tuition costs low. He now pays more than nine thousand dollars a year in tuition, plus thousands of dollars more in living expenses and fees.

The average cost of college tuition has gone up 8% over last year.

대통령은 대학들에 상승하는 대학 등록금 비용에 대해 조치를 취할 것을 경고합니다. 오바마 대통령은 "치솟는 등록금을 계속 보조할 수는 없습니다. 만약 등록금이 물가보다 빨리 상승하면 우리가 얼마나 보조금을 지급하든지 간에 돈이 바닥날 것입니다."라고 말했습니다. 대통령의 계획에 대해 펜 주립 대학의 교수는 회의적인 견해를 보였습니다. Robert Hendrickson은 대통령의 동기는 좋지만, 오바마 대통령이 효과가 있을 해결책을 떠올렸는지는 확신하지 못합니다. Hendrickson은 또한 등록금이 전국적으로 오르고 있는 것은 대학들이 증가하는 에너지, 물품, 용역 비용을 지불해야 하기 때문이라고 말합니다. Josh Aikins는 Penn 주립 대학에 다니는 4학년입니다. 그는 정부의 등록금 인하 안을 반깁니다. 그는 지금 일년에 등록금으로 9천 불 이상을, 생활비와 각종 요금으로 수천 달러 이상을 더 냅니다. 평균 대학 등록금은 작년 8% 올랐습니다.
